Quantum® 610

The compact Quantum® 610 is the ultimate choice for users who demand the superb stability of patented Mid-Wheel 6® Design and tight-quarter maneuverability. Highly adaptable, the Quantum 610 accepts a wide range of seating and electronics options while its powerful drivetrain delivers high-performance torque.

**FEATURES**
- User weight capacity of 300 lbs.
- Mid-Wheel 6® allows six wheels on the ground for stability
- Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
- Compatible with TRU-Balance® Power Positioning
- Maximum speed of 4 mph
- Standard 5 amp, off-board charger

Quantum® 6000Z

The Quantum® 6000Z utilizes powerful 4-pole motors for maximum torque and patented Mid-Wheel 6® Design for aggressive outdoor performance and precision indoor maneuverability. The Quantum 6000Z accepts a broad range of seating and electronics options for unmatched adaptability and rehab capability.

**FEATURES**
- User weight capacity of 300 lbs.
- Mid-Wheel 6® allows six wheels on the ground for stability
- Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
- Compatible with TRU-Balance® Power Positioning
- Maximum speed of 8 mph with optional high-speed motor package
- Standard 8 amp, off-board charger
- Available with Accu-Trac Advanced Tracking Technology

Q6 Edge®

With features like standard 4-pole motors, patented Mid-Wheel 6® Drive Design and ATX Suspension, the Q6 Edge® is engineered to meet the performance needs of the most active user. The Q6 Edge accepts a complete range of seating and electronics options to deliver exceptional rehab capability at an excellent value.

**FEATURES**
- User weight capacity of 300 lbs.
- Mid-Wheel 6® allows six wheels on the ground for stability
- Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain

Q6 Edge®

With features like standard 4-pole motors, Mid-Wheel 6® Drive Design and ATX Suspension, the Q6 Edge® HD is engineered to meet the performance needs of the most active user. The Q6 Edge HD accepts a complete range of seating and electronics options to deliver exceptional rehab capability at an excellent value.

FEATURES
• Mid-Wheel 6® allows six wheels on the ground for maximum stability
• Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
• Compatible with TRU-Balance® Power Positioning
• Maximum speed of 4 mph with optional high-speed motor package
• Standard 8 amp, off-board charger
• Available with Accu-Trac Advanced Tracking Technology

Quantum® 6000Z

From the classroom to the playground, the Quantum® 6000Z delivers grown-up power and performance in an easy-to-use package that’s up for any challenge a kid can put it through. Limitless rehab capability, powerful 4-pole motors and the unmatched maneuverability of patented Mid-Wheel 6® Design make the Quantum 6000Z an excellent choice for the classroom, playground and beyond.

FEATURES
• User weight capacity of 300 lbs.
• Mid-Wheel 6® allows six wheels on the ground for stability
• Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
• Compatible with TRU-Balance® Power Positioning
• Maximum speed of 6 mph with optional high-speed motor package
• Standard 8 amp, off-board charger

Quantum® 1450

The Quantum® 1450 front-wheel drive bariatric power base features innovative design that provides exceptional outdoor performance while delivering outstanding tight space maneuverability. The 1450 accepts a complete range of rehab seating and electronics options.

FEATURES
• 600 lbs. weight capacity
• Maximum speed up to 4.5 mph
• High-performance, high-efficiency motor package
• Accepts a wide range of seating and positioning system

Quantum® 610

The Quantum® 610’s highly compact size provides easy access to kid-sized spaces, combined with the true all around performance of patented Mid-Wheel 6® Design, Glide motors and excellent rehab capability make the Quantum 610 a powerful and complete pediatric power chair option.

FEATURES
• Mid-Wheel 6® allows six wheels on the ground for stability
• Patented ATX Suspension (Active-Trac® with extra stability) incorporates front OMNI-Casters for enhanced performance over more varied terrain
• Compatible with TRU-Balance® Power Positioning
• Maximum speed of 4 mph
• Standard 5 amp, off-board charger

Quantum® 6000HD

Spectrum® Foam cushion available in sizes up to 32” x 28” with 650 lbs. weight capacity.

Quantum® for Kids

Don’t forget the Cushion! Synergy® Foam cushion available in sizes as small as 10” x 10”

Don’t Forget The Cushion! Synergy® cushions available in sizes up to 32” x 28” with 650 lbs. weight capacity.
The Quantum® Synergy® Seating System offers a clean, streamlined appearance and unparalleled ease of adjustment. The seating system’s unique design allows for height, width, depth and back angle adjustments to be made quickly and easily in the field. The Synergy Seat interfaces with most types of seat and back cushions, and was designed to be the most user-friendly system available today.

**Features**

- Easily adjustable and versatile design that can grow with the client
- Easy customization
- Several width/depth adjustment packages ranging from 10” to 24”
- Accepts a wide variety of after-market seats and backs
- Additional 1/2” of viscoelastic foam in seat cushion for maximum comfort and pressure management

**Options**

- Available in 8” and 10” widths (8” shown)
- Choice of Synergy® Manual Recline or Synergy® Power Recline
- Streamlined mounting bracket offers a greater range of adjustment

**Dimensions**

- Maximum seat size of 32” x 28” on the Q6000 HD
- Weight capacity up to 450 lbs. on the Q6000 HD
- Maximum seat size of 32” x 28” on the Q1450

**Please Note:** Some options may not be available on all power bases. Please contact Quantum Customer Service for availability.

---

**Synergy® Manual Tilt**

- Solid curved back pan and 2 1/4” raised pivot point to reduce shear forces
- Attendant-activated recline seat
- 10° - 24° wide / 10° - 24° deep
- 300 lbs. weight capacity
- 180° of recline
**Synergy® Simplicity**

Tremendous comfort and moderate pressure management

**FEATURES**
- High-density polyurethane foam construction
- Exclusive wrap-and-lift design for pressure management
- Coccyx and sacral relief
- Four-way stretch, fluid resistant upper cover

**Synergy® Solution®**

Three-component design for pressure management, positioning and long-lasting comfort

**FEATURES**
- Exclusive wrap-and-lift design for pressure management
- Twin-cell gel insert
- Viscoelastic top layer
- 2-cover system to prevent shearing with interior liner

**Synergy® Spectrum®**

Customized comfort and superb positioning and pressure management

**FEATURES**
- Extra deep well
- Choice of twin-cell lightweight fluid or viscoelastic foam insert
- Viscoelastic top layer
- 2-cover system to prevent shearing with interior liner
- 650 lbs. weight capacity with viscoelastic foam insert

**Synergy® Spectrum® Air**

4" multi-cell insert and exclusive Sili-Air silicone base deliver unprecedented stability

**FEATURES**
- Multi-cell air bladder
- Unique airflow properties of the Sili-Air silicone foam base help keep skin cool and dry
- Pre-ischial shelf contoured into Sili-Air silicone foam base
- Waterproof, antibacterial Sili-Air base
- Precision air volume adjustment
- Compact hand pump fits in integrated carrying pouch
- Solid seat insert included

**Synergy® Solution® 1**

Innovative, two-layered design for exceptional pressure management and positioning

**FEATURES**
- High-density polyurethane foam construction
- Coccyx and sacral relief
- Soft gel top layer for skin protection
- Four-way stretch, fluid resistant upper cover

**Shape GP**

The lightweight Synergy® Shape GP general purpose wheelchair back cushion delivers long-lasting support and exceptional positioning via a contoured design. The unique two-point connection hardware makes removal and adjustment fast and effortless while providing a very solid connection for a secure, rigid feel.

**FEATURES**
- Quick and easy installation on 7/8” and 1” diameter back canes
- Two-point hardware allows for easy removal and provides solid, rigid attachment to chair
- Wraparound cover keeps back cushion from shifting position
- Angle adjustment of 10 to -10 degrees and 2" depth adjustment with client in chair
- High-density foam base to prevent bottom out
- Contoured to help maintain proper positioning

**Shape**

The Synergy® Shape Back has features like an enhanced wraparound cover and two-point quick-release levers for easy depth and angle adjustment, even while occupied. Available in standard, low and tall back heights, the Shape utilizes a unique contoured design and dual layer foam construction with viscoelastic foam top layer to offer exceptional comfort, support and pressure management.

**FEATURES**
- Ergonomically contoured
- High-density base foam with a soft viscoelastic upper layer
- Four-way stretch cover overlaps back pan
- Choice of mounting hardware: Two-point, quick-release or four-point, bolt-on hardware for use with TRU-Balance® Power Positioning and Synergy® Seat Frame Systems
- Angle adjustment of 57 to -33 degrees and 2” depth adjustment with client in chair
- Available in standard (19”), low (16”) and tall (23”) back heights
- Accommodates an array of headrests and accessories

**Shape Deep Contour**

The Shape Deep Contour features fully adjustable, gel-covered thoracic lateral supports and dual layer foam construction with a viscoelastic foam top layer for pressure management and comfort. It is an exceptional choice for those who desire superior comfort and support.

**FEATURES**
- Fully adjustable, 2" (51 x 64” OD), gel-covered thoracic lateral supports
- Quick and easy installation on 7/8” and 1” diameter back canes
- Choice of mounting hardware: Two-point, quick-release or four-point, bolt-on hardware for use with TRU-Balance® Power Positioning and Synergy® Seat Frame Systems
- Angle adjustment of 57 to -33 degrees and 2” depth adjustment with client in chair
- High-density foam base with viscoelastic foam top layer to prevent bottom out
- Wraparound cover keeps back cushion from shifting position
- Available in standard (19”) and tall (23”) back heights
The Q-Logic 2 Drive Control System by Quantum Rehab® is the most advanced power chair electronics package available. The Q-Logic Series creates an adaptable, expandable control system that serves even the most complex needs while delivering a host of exclusive features.

### Features
- More programming and customization options for a smooth ride
- Larger 2.8" LCD screen
- Built-in ambient light sensor automatically adjusts screen brightness
- Controller armor available in color matching options
- Enhanced horn volume
- [Coming soon] Bluetooth access to computer, tablet and phone functions
- [Coming soon] Phone and Android compatibility

### Q-Logic EX Enhanced Display
The optional Enhanced Display serves as a separate screen used with specialty drive controls to display system data. With the Enhanced Display’s built-in environmental controls, Q-Logic can operate a wide range of appliances that use infrared (IR) remote controls, such as televisions, and serves as a Bluetooth computer mouse emulator.

### Optional Modules
- EX Stand-Alone Joystick (SAJ) / EX Attendant Joystick
- EX Joystick for LED lights
- Advanced Actuator Module (AAM)
- Sip-N-Puff
- Environmental Control Unit (ECU)

### Programming Devices
- Hand-held Programmer
- PC Programmer
- Q-Logic NE
- Q-Logic NE+

### Non-Expandable
- NE and NE+ JOYSTICKS
- PG VR2 (4-key)
- PG VR2 (6-key)
- PG VR2 (9-key)

### Expandable
- Q-Logic EX Joystick
- Q-Logic EX Joystick with Lights
- Q-Logic EX Enhanced Display
- Q-Logic EX Stand Alone Joystick

### Multi-Switch Systems
- TASH Star Board
- TASH Penta Switch
- TASH Wakenboard
- Switch-It Lap Tray
- TASH Mini Joystick with Push
- ASL 3 Switch Head Array
- 3-Switch Stealth Ultra Head Array
- Switch-It Head Array (3, 4 or 5 switch)

### Proportional Drive Controls
- ASL Micro Extremity Control
- Switch-It Proportional Joystick
- Finger Steering
- HMC Mini Joystick
- Stealth Mushroom Joystick
- ASL Rim Control
- Switch-It Touch Pad

### Single Switch
- TASH Tip Switch
- TASH Pillow Switch
- TASH Trigger Switch
- Switch-It Microtouch
- Buddy Button
- Egg Switch
- MicroLite Switch
- Switch-It Unwobble Switch

### Sip-N-Puff Options
- Therallin Whisper Lite
- ASL Sip-N-Puff Hardware
- ASL Sip-N-Puff Head Array
- Switch-It Sip-N-Puff with Opti-Stop

### Additional Options
- ASL Remote Stop Switch
- Switch-It Remote Stop Switch
- TASH Relax II Infrared Interface Module
- Joystick Handles
The Litestream® XF ultralight manual wheelchair uses a unique, innovative, rigidizing double X folding frame that delivers the versatility and performance of a rigid frame while folding to a width of only 5" for easy transport. The Litestream XF accepts a broad selection of accessories to meet a wide variety of needs and personal preferences while remaining an excellent overall value. The Litestream XF is also available in an HD configuration that weighs just 39 lbs. and features a cane-to-cane rigidizing bar for added stability.

Litestream® Junior

From the classroom to the playground, the Litestream® Junior is a superb manual wheelchair for even the most active child. The Litestream Junior accepts a wide range of accessories and options making it a highly adaptable and versatile rehab solution.

Kids FAST™

The Kids FAST™ chair from Kids UP® delivers a complete seating and positioning system that is fully adjustable to grow with a child. The Kids FAST features a lightweight, easy to fold base that provides plenty of storage and user-friendly features for children and parents.

The Reaction® Dynamic Seating System allows a child the freedom to move into flexion or extension in the chair while maintaining proper pelvic positioning and therapeutic support.

**FOOTNOTES**

1) Standard
2) Optional
3) High-speed motor package increases speed to 6 mph and reduces weight capacity by 50 lbs.
4) Speeds vary with user weight, femur type, battery charge, battery condition and tire pressure.
5) Without floor rigging
6) Battery capacity may change when adding power positioning systems.
7) **Antti-Tip** wheels are included with the selection of seat width.
8) All measurements are 1/8" x 18" x 18" seat, fixed backs, 300 lbs. weight capacity and solid tires with pneumatic tires. Width may increase seat-to-floor height. Consult Customer Service for details. Listed measurements are in the lowered position; does not include elevating system unless specified.
9) Power recline and Power Front Rriggings do not increase seat-to-floor height.
10) **The Synergy** MHR weight capacity is 75 lbs. and maximum dimensions are 14" W x 14" D. Maximum dimensions of the Manual recline vary by power base and seating system. Call for details.
11) Requires Group 34 batteries
12) All Quantum Rehab® units can be ordered with specialty controls
13) Required with high-speed motors
14) Battery weight may vary based on manufacturer
15) The addition of Power Recline does not affect the allowable seating sizes.
16) 350 lbs. weight capacity with TRU-Balance® Systems
17) With TRU-Balance® HD Power Tilt
18) Requires HD Suspension
